

HAVI: Global Leader, Local Partner

HAVI is a global, privately owned company focused on innovating, optimizing and managing the supply chains of leading brands. Offering services in supply chain management, packaging, logistics and recycling & waste, HAVI partners with companies to address challenges big and small across the supply chain, from commodity to customer. Founded in 1974, HAVI employs more than 9,000 people and serves customers in more than 100 countries. HAVI's supply chain services are complemented by the customer engagement services offered by our affiliated company The Marketing Store.

▶ LOGISTICS

Our proven expertise in procurement, warehousing, distribution and freight management can help you keep your supply chain - and your business - moving.

In Austria, we act as trusted partners to our customers, helping them to focus on their growth while we take full control of their logistics, consistently achieving the highest standards of punctuality and reliability. With our customers' profits in mind, we operate a unique and fully transparent business model that involves taking goods ownership of their product.

Our pioneering invisible delivery service also adds significant value to our customers' businesses by freeing their front-of-house teams to serve guests while we handle in-store deliveries behind the scenes - from checking the incoming items to shelving them in the storage areas.

Ultimately, we free our customers to focus on their own customers and grow their businesses by relieving them of key operational logistics tasks, warehousing and distributing the right product to the right place at the right time, every time.

▶ PACKAGING

HAVI provides strategic and operational expertise to ensure that our customers' packaging supports the optimal movement of their products through the supply chain. We take an holistic view, determining how packaging can support a customer's strategic goals from concept development to production to the market and through end of life. In Austria, we manage packaging supplies at 195 restaurants for the leading global quick service restaurant brand.

Going greener

We lead the market in building sustainable businesses. Since 2002, we have held accreditation under the EU's Eco-Management and Audit Scheme (EMAS), which helps businesses improve environmental performance. We run our vehicle fleet using fuel made by recycling customers' cooking oil, and auto-gas, which reduces CO₂ emissions by 70% compared to standard diesel. For this Initiative, we received the Energy Globe award in 2013 from the Lower Austria province.

▶ RECYCLING & WASTE

In Austria, we offer individually tailored recycling solutions that relieve customers of any obligations associated with local legislation. We also work with an experienced partner to deliver reverse logistics solutions. Worldwide, HAVI provides end-to-end waste management solutions that drive savings and unlock revenue while promoting sustainable business practices.

▶ SUPPLY CHAIN MANAGEMENT

Our talented Supply Chain Management experts partner with our customers to understand their business objectives, then deliver a suite of right-sized solutions designed to meet those objectives. In Austria, our specialists have over 30 years' experience in developing and implementing highly customized Supply Chain Management solutions for customers in the food industry. We also handle all the operational issues associated with managing promotions.
