HAVI: Global Leader, Local Partner

HAVI is a global, privately owned company focused on innovating, optimizing and managing the supply chains of leading brands. Offering services in supply chain management, packaging, logistics and recycling & waste, HAVI partners with companies to address challenges big and small across the supply chain, from commodity to customer. Founded in 1974, HAVI employs more than 9,000 people and serves customers in more than 100 countries. HAVI’s supply chain services are complemented by the customer engagement services offered by our affiliated company The Marketing Store.

LOGISTICS

Our proven expertise in procurement, warehousing, distribution and freight management can help you keep your supply chain – and your business – moving.

In Japan, our teams act as trusted logistics partners to customers operating in the complex perishable and time-sensitive products sector, supporting them with cost effective, performance-linked, sustainable change management logistics services.

With the focus on integrating the supply chain, our expertise covers a wide range of logistics disciplines. They include; domestic warehousing and transport across all temperature zones; international logistics (blue-water shipping, freight management, customs clearance, drayage etc.); sales-linked inventory procurement; sourcing and order management; inventory ownership, risk mitigation and optimization; cost management and control; reporting and control. We also apply our first-hand understanding of Japan’s unique business culture to challenges such as change management and performance based partnership.

Ultimately, we free our customers to grow their businesses by relieving them of key operational logistics tasks – from sourcing and importing the right product to warehousing and distributing it to the right place, on time, every time.

PACKAGING

HAVI provides strategic and operational expertise to ensure that our customers’ packaging supports the optimal movement of their products through the supply chain. We take an holistic view, determining how packaging can support a customer’s strategic goals from concept development to production to the market and through end of life. In Japan, we manage packaging supplies at 2,939 restaurants for the leading global quick service restaurant brand.

Going greener

HAVI’s Kyushu distribution center in Tosu, Japan, won official recognition as one of the city’s recognized Eco Offices after completing an eco-drive training program resulting in a significant electricity consumption reduction by optimizing the use of its air conditioners and refrigerators and lowering its transport CO₂ emissions.

RECYCLING & WASTE

In line with global trends, Japanese consumers are demanding more from companies when it comes to acting responsibly towards the environment. Drawing on HAVI’s global expertise, our teams in Japan are ideally positioned to respond to people’s growing concerns. Worldwide, HAVI provides end-to-end waste management solutions that drive savings and unlock revenue while promoting sustainable business practices.

SUPPLY CHAIN MANAGEMENT

Our talented Supply Chain Management experts partner with our customers to understand their business objectives, then deliver right-sized solutions to meet those objectives. In Japan, we offer a comprehensive portfolio of Supply Chain Management services comprising strategic supply chain planning; demand and supply planning; technology development and deployment; and change management (business process re-engineering, network optimization, facility layout and configuration etc.). We also handle all operational issues associated with promotion management including the provision of sales and operational analytics.
